

FOREIGN-OWNED PREPARATION CONSULTATION

FOR FOREIGN OWNED LLCs and FOREIGN OWNED C-CORPORATIONS

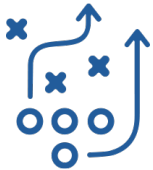

Step I - Understanding Your Specific Situation

To begin, we discuss your specific situation as a foreign-owned entity owner: Is this a Foreign-Owned **LLC**, **Corporation**, or a **Foreign Corporation**? From there, we determine if there is U.S. source income subject to tax, what the Federal and State income tax filing requirements are, and the applicable deadlines. This conversation is the foundation for an accurate and complete tax return.

Step II - Identifying the Information Needed for Your Return

From there, we identify the information and documents needed to prepare your tax return: income records, foreign account details, entity financial statements, and prior-year filings. You leave the consultation knowing exactly what to gather and how to organize it, so your return can be prepared efficiently and correctly.

Step III - Long-Term Strategy & Accurate Pricing

We also discuss long-term strategy and planning for future years, so each return builds toward the right structure. This consultation becomes the basis for understanding your situation and developing accurate pricing to complete your tax return.

CHOOSE YOUR CONSULTATION:

TIER 1:

Focused Review of Your Situation and the Information Needed to Prepare Your Tax Return.

\$92
(30 Minutes)

TIER 2:
